

- Golf ITS -

R+T 300 Amp Controller 2007 GOLF
Voltage at 4 wire connector from 14volt

- Blue - Full throttle 4.9
- yellow - + Pack Voltage 4.9±
- Red - + Return from micro switch when pedal is pressed
- Green - - Negative to ITS

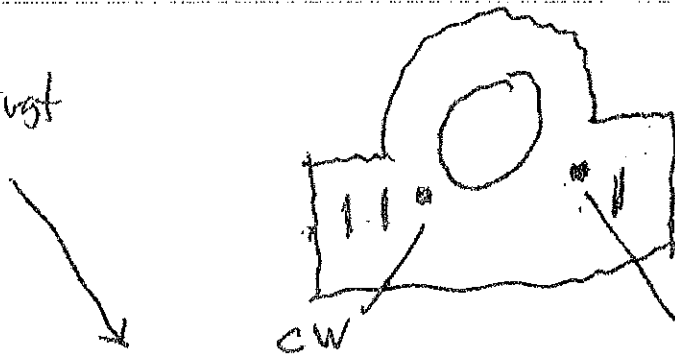

2 screws on Back of ITS Adjust
at a time to get the highest voltage
4.0V or more

ITS

Do this second.
The highest I could get
with the other screw set
at 2v was 4.37v

Do this first

To Raise Voltage
to About 2.0 with
Nothing in the ITS

To Raise Voltage
with something
in ITS
